SAFETY

Your safety and the safety of others is very important.

- In order to help you make informed decisions about safety, we have provided installation instructions and other information.
- These instructions alert you to potential hazards that could hurt you or others.
- Please do a job safety analysis (JSA) before each task to identify potential hazards for your situation and remove/protect against them.
- You must use your own good judgment, and take your time.

Read and understand all safety precautions and instructions before installing this product.

THIS PRODUCT IS FOR OFFROAD USE ONLY. ALL LIABILITY FOR INSTALLATION AND USE RESTS WITH THE OWNER.

CARELESS INSTALLATION AND OPERATION CAN RESULT IN SERIOUS INJURY OR EQUIPMENT DAMAGE.

Injury hazard

Failure to observe these instructions could lead to severe injury or death.

- Always remove jewelry and wear eye protection.
- Always use appropriate and adequate care in lifting components into place.
- Always insure components will remain secure during installation and operation.
- Always wear safety glasses when installing this kit.
- Always use extreme caution when cutting and trimming during fitting.
- Always tighten all nuts and bolts securely per installation instructions.
- Always perform regular inspections and maintenance on mounts and related hardware.
Overview

Congratulations on your new purchase of the rear fender flare assembly.

Your flares were designed in 3-D from digitized data, CNC laser cut, fabricated, and powder coated... all in the U.S.A. Enjoy the fit and finish of a quality rear fender flare from Fab Fours, Inc.
I. Tools Required
   • Allen wrenches

II. Installation

1. Start by removing fender skin. You can do this by removing bolts shown below.

2. Next place fender flare on fender, lining up mounting holes. Start by re-installing the three short bolts to hold flare in place.

3. Next re-install remaining hardware. Once all hardware is installed you can now tighten all the hardware, securing the flare to vehicle.
III. Maintenance/Care

☐ Periodically check and tighten all nuts.
☐ Stripped, fractured, or bent bolts or nuts need to be replaced.
